

DAMON VERSAGGI

DIGITAL EXPERIENCE & CREATIVE SERVICES EXECUTIVE | AI | WEB | UX | BRAND SYSTEMS

Brooklyn, NY | damon@scrappymeals.com | [linkedin.com/in/damonversaggi](https://www.linkedin.com/in/damonversaggi) | scrappymeals.com

EXECUTIVE PROFILE

Digital experience, creative services, product, and technology executive with 20+ years leading multidisciplinary teams and translating complex business, audience, and technical requirements into cohesive digital experiences. Experience spans financial services, AI-powered products, web platforms, UX, visual systems, multimedia, interactive media, real-time 3D, and emerging technology. Combines executive-level strategy and stakeholder leadership with strong design judgment, hands-on technology fluency, and a record of building customer-facing products, creative systems, production workflows, and high-stakes digital experiences.

CORE LEADERSHIP & EXPERTISE

Digital Experience Strategy | Creative Services Leadership | Web Strategy & UX | Visual & Brand Systems | User-Centered Design | Digital Platforms | AI Literacy & AI-Enabled Workflows | Product Strategy | Design Governance & Quality | Multimedia Storytelling | Creative Operations | Workflow Optimization | Cross-Functional Leadership | Executive Presentations | Team Development | Real-Time 3D / XR

PROFESSIONAL EXPERIENCE

eFUNDEX | New York, NY | 2015-Present

Vice President, Sales & Technology | Jan 2024-Present

- Lead technology, customer experience, sales operations, and workflow modernization initiatives for a commercial working-capital company serving small and midsize businesses.
- Own the evolution of customer and internal digital experiences across lead generation, qualification, document intake, funding evaluation, follow-up, and customer communication.
- Translate complex financial products and operational requirements into clearer customer journeys, service flows, digital touchpoints, and repeatable internal workflows.
- Develop AI-assisted workflows and automation strategies supporting prospect research, outreach, customer acquisition, data processing, and internal operations; evaluate APIs, AI tools, and system integrations for responsible business use.
- Partner across business, technology, sales, underwriting-related processes, and customer-facing teams to align experience decisions with operational, commercial, and risk requirements.

Product, Technology & Growth Advisor | 2015-Dec 2023

- Advised leadership across product strategy, technology, digital experience, growth, customer acquisition, and operational transformation in a regulated, data-heavy financial environment.
- Mapped and improved customer touchpoints from acquisition through application, financial-document collection, evaluation, funding, renewal, and ongoing communication.
- Developed technology and growth strategies supporting scalable customer acquisition, sales enablement, operational efficiency, process consistency, and clearer digital workflows.

SCRAPPY MEALS XR / FRIDGIE SMALLS | Brooklyn, NY | 2016-Present

Founder, Product & Experience Lead

- Built an AI-powered consumer and immersive food-tech ecosystem spanning web products, UX, interactive 3D, WebXR, original IP, live experiences, restaurant partnerships, and AI-assisted content production.
- Led end-to-end digital product strategy, experience design, prototyping, development, deployment, and optimization for Fridge Smalls, a mobile-first platform serving nearly 20,000 users.
- Designed user journeys and interaction flows across onboarding, ingredient input, voice interaction, dietary preferences, AI recipe generation, grocery planning, saved content, and interactive experiences.
- Directed product architecture integrating React, TypeScript, APIs, OpenAI models, Web Speech technologies, MCP, Hono, Railway, and Vercel; reduced input-token usage 72%, cut tokens per request about 40%, and improved response time by roughly two seconds.
- Led designers, developers, interns, freelancers, restaurant partners, and production collaborators; created and led a 16-person internship cohort with structured briefs, critique, mentorship, and production workflows.

DAMON VERSAGGI CONSULTING | New York / Remote | 2015-Present

Independent Creative Director / Experience Design & Creative Technology Consultant

- Lead digital experience, creative technology, interactive, immersive, real-time, and emerging-media initiatives from discovery and strategy through prototyping, production, launch, and iteration.
- Translate stakeholder goals and technical constraints into audience-centered experiences, visual systems, prototypes, production workflows, and launch-ready digital solutions while working across design, engineering, production, operations, and executive teams.
- Provide creative direction, design critique, technical planning, QA, and final quality oversight; establish repeatable workflows and standards that protect experience quality across complex production environments.
- Present creative and technical concepts directly to senior clients, executives, and ownership groups; representative work includes ESPN, NBA, MLB, NBC, SNY, Amazon Prime Sports, Dick Clark Productions, CNN, CBS, Bloomberg, and major broadcast networks.

SELECTED IMMERSIVE & CULTURAL EXPERIENCE

ARTIST RESIDENCY | Strevi, Italy | Oct 2024 | 3 weeks

XR / Immersive Media + Scrappy Meals

- Featured XR work centered on an immersive interpretation of a Mother Cabrini statue, extending a physical cultural object through digital 3D, spatial storytelling, and audience interaction.
- Represented Scrappy Meals within the residency and cooked for a communal house of approximately 7-12 residents and guests, combining food, hospitality, community participation, and creative practice.

THE METACHEESE / SCRAPPYHOUR / FRIDA001 | Selected Work

- Created browser-based WebXR, hybrid culinary, and physical-to-digital experiences combining real-time 3D, live instruction, projection, AR/NFC interaction, remote participation, and audience engagement.

EARLIER LEADERSHIP & CREATIVE TECHNOLOGY EXPERIENCE

TRIBUNE MEDIA / PIX11 / WGN | New York, NY | Feb 2012-Dec 2015

Production Manager, Creative & Real-Time Systems

- Led production-focused real-time systems across live news, election coverage, graphics, and control-room environments, coordinating Art, Technology, News, operators, production teams, and vendors across 24-hour operations.
- Managed changing editorial requirements, testing, troubleshooting, visual quality, workflow reliability, technical dependencies, and live delivery under deadline-critical conditions.

SPORTSNET NEW YORK (SNY) / NEW YORK METS | New York, NY | 2008-2012

Creative Systems / Real-Time Graphics Lead

- Helped develop and present a visual direction spanning broadcast and in-stadium graphics for SNY and the New York Mets, aligning brand expression, sponsor needs, audience clarity, technical constraints, and live production workflows.
- Managed and mentored production assistants, operators, and interns; established repeatable workflows, critique, quality standards, documentation, and troubleshooting practices.

VIZRT | New York / International | Oct 2004-Sep 2008

Production Manager / Art Director

- Led real-time 3D creative services, client solutions, design and workflow strategy, technical demonstrations, implementation, training, launch support, and troubleshooting for enterprise sports and news organizations.
- Managed a distributed five-person demo and training team and trained approximately 1,000 artists, designers, operators, and users; translated creative requirements into reliable software, graphics, data, hardware, and production workflows.
- Supported launch-critical work for Fox Business Network and CBS HD, plus ESPN and NBA Finals production, where design quality, stakeholder coordination, usability, and technical reliability had to hold under live deadlines.

TECHNOLOGY

React | TypeScript | JavaScript | HTML/CSS | APIs | OpenAI API | AI/LLM Platforms | MCP | Hono | Railway | Vercel | Web Speech API | WebXR | AR | Real-Time 3D | Unreal Engine | Blender | Interactive Graphics | Data-Driven Systems

EDUCATION

School of Visual Arts (SVA), New York, NY | BFA, Computer Art | 1999-2003
